

# Guide to Foliar Feeding

## Stimulate Bonus Alfalfa Yield and Quality

### Opportunities to Increase Yield & Quality with Feast<sup>®</sup> Foliar Feeding

#### **Spring - break of dormancy**

- ◆ Feast<sup>®</sup> 9-18-9, 3-18-18 or Side-Kick<sup>™</sup> 0-0-25-17S
- ◆ Foliar X-CYTO<sup>®</sup> Plant Growth Regulator

#### **After each cutting**

- ◆ Feast<sup>®</sup> 9-18-9, 3-18-18 or Side-Kick<sup>™</sup> 0-0-25-17S
- ◆ Foliar X-CYTO<sup>®</sup> Plant Growth Regulator

#### **Fall - before killing frost**

- ◆ Feast<sup>®</sup> 3-18-18

\* Application rates determined by soil and or tissue test

**Greater Yield + Enhanced Forage = More Income per Acre**

### Research results indicate

- ◆ Faster recovery and growth
- ◆ Greater proportion of leaves
- ◆ Increased yield
